

I CLAIM:

1. A notebook computer comprising:
a monitor including a frame,
a speaker device including a housing having a casing, and said
5 casing including a space formed therein to receive said frame and to
attach said casing and said housing to said frame of said monitor,
and
said speaker device including at least one spring blade
extended therefrom, to engage with said frame of said monitor, and
10 to secure said speaker device to said monitor.
2. The notebook computer as claimed in claim 1, wherein said
casing includes two side plates to define said space thereof and to
receive said frame.
3. The notebook computer as claimed in claim 2, wherein said
15 at least one spring blade is extended from either of said side plates
of said casing.
4. The notebook computer as claimed in claim 3, wherein
either of said side plates includes an opening formed therein to form
said at least one spring blade.
- 20 5. The notebook computer as claimed in claim 1 further
comprising at least one adhesive member attached to said casing, to
engage with and to secure said casing to said frame of said monitor.
6. The notebook computer as claimed in claim 5, wherein said
casing includes two side plates and an upper plate to define said
25 space thereof and to receive said frame, said at least one adhesive
member is attached to either of said plates of said casing.
7. The notebook computer as claimed in claim 1 further

comprising an adhesive member attached to said at least one spring blade, for engaging with said frame of said monitor, and for further securing said casing to said frame of said monitor.

8. The notebook computer as claimed in claim 1 further
5 comprising means for securing said casing to said frame of said monitor.

9. The notebook computer as claimed in claim 8, wherein said securing means includes at least one fastener engaged through said casing and engaged with said frame of said monitor, to secure said
10 casing and said housing to said frame of said monitor.

10. The notebook computer as claimed in claim 9, wherein said casing includes at least one plate to define said space thereof and to receive said frame, said at least one fastener is engaged through said at least one plate of said casing.

11. The notebook computer as claimed in claim 9, wherein said
15 at least one fastener includes a knob and a threaded shank extended from said knob to engage through said at least one plate of said casing.

12. The notebook computer as claimed in claim 11, wherein
20 said at least one fastener includes a follower attached to said threaded shank, to engage with said frame of said monitor.

13. The notebook computer as claimed in claim 12, wherein said follower includes a pad attached thereto, to engage with said frame of said monitor.
